Gain an understanding of LNG operations and its place in the industry

Delivering your strategy.

Fully flexible learning for the global shipping community

GAC Training & Service Solutions (GTSS) is dedicated to delivering specialised, high value, technologically advanced training courses and empowering professionals in the maritime, transport and commodity sectors.

An introduction to LNG

GAC Training & Service Solutions has developed this two day course to give a structured introduction to LNG. Day One provides a practical approach to understanding the key elements of the LNG business; Day Two focuses on the supporting activities that underpin an LNG operation.

The course has been specifically designed to suit all managers and staff who want a clear understanding and overview of the LNG industry.

The course covers:

- An introduction to LNG
- The buying and selling of LNG
- Types of transportation agreement
- The LNG value chain
- Operational safety issues
- World markets
- Shipping
- LNG trading
- Operational shipping logistics
- Maritime law, regulations and codes of practice
- New LNG concepts

On completing the course, participants will have a clear understanding of the fundamentals of LNG.

Who should attend?

This course is designed for anyone working within the LNG industry as producers, buyers, carriers, surveyors, receivers or any organisation who has staff involved with LNG vessel operations.

Bespoke options

This course can be tailored to suit our clients' exact training specifications.

THE NATIONAL MARITIME COLLEGE OF IRELAND

Overlooking the city of Cork is the world's most advanced maritime academic facility – the \$100 million National Maritime College of Ireland. Just a 45-minute hop from London Heathrow Airport, the NMCI is perfectly located to meet the growing training needs of the global shipping community. GTSS combines the NMCI's state-of-the-art facilities (including a 17 bridge simulator suite and survival pool) with GAC's global reach and over 60 years of shipping experience. Courses can take place at the NMCI, online, at the client's or any other location or any combination of these. Courses are developed and delivered by some of the most respected names in maritime training.
