

Course Name:

Proficiency in Survival Craft (CPSC) STCW-95

Course Price:

655.00 Cost per student including examination fees

Short Description:

This 5-day course will prepare candidates involved in taking charge of the launching or handling of survival craft to achieve an appropriate level of competence and confidence in these operations.

Course Type:

STCW'95 & non STCW'95

Full Description:

The Survival Craft training will prepare candidates involved in taking charge of the launching or handling of survival craft to achieve an appropriate level of competence and confidence in these operations.

Much of the course is practical in nature and candidates will benefit from being able to gain practical experience of operating a variety of open and totally enclosed lifeboats and inflatable rescue boats from different davit systems on the Centre's well-equipped pier head facility.

As well as dealing with the main features of different types of survival craft and their launching appliances, the course emphasizes the need for safe operating procedures.

- Emergency situations
- Taking charge of a survival craft or rescue boat during or after launch
- Principles of survival
- Survivor and survival craft management after abandoning ship
- [First aid](#) application to survivors
- Radio equipment
- Signalling for rescue
- Operation of a survival craft engine and rowing practice
