Powered by the **National Maritime** College of Ireland

Course Name:

Ship to Ship (STS) Transfer Simulator - Delivered by GAC Training and Service Solutions (GTSS)

Course Price:

€TBA (Prices are charged on a per person basis.)

Short Description:

In supplying this course, GAC Training & Service Solutions is responding to market demands for an accessible, interactive and exciting 5 day short course to provide invaluable experience in Ship-to-Ship (STS) related ship handling

Course Type:

Simulation

Full Description:

Utilising the NMCI's Kongsberg 360° full-mission bridge simulator (one of only a few in the world) and built upon industry best practice, this course covers key areas of STS operations with berthing, unberthing underway and static exercises in both benign and adverse weather conditions in all sizes of vessels.

Upon successful completion of the course, participants will be certified as complying with the requirements set out in the OCIMF 4th edition guidelines (2005).

What are the benefits?

Participants will gain experience in STS-related ship handling including:

Book Now

There are currently no dates available.
Please [contact us](#) for more information.

Safe manoeuvring utilising the ship's engines and helm

Understanding of natural forces (wind, current, interaction) and their effects on the behaviour of a ship involved in an STS operation

Awareness of importance of approach planning and the need for an alternative plan

Understanding and awareness of efficient management of bridge procedures during STS ship handling operations

Effective and safe bridge team management using bridge resources management tools
