

Get onboard with our new online maritime training courses

GAC Training & Service Solutions has launched four flexible online courses, open to both group and individual bookings, hosted by the **Chevron Shipping Centre of Learning & Development** in Glasgow, Scotland.

- **ECDIS Type Specific (Sperry & JRC):** this 16-hour course is designed for all Deck Officers and aims to give participants the knowledge and skills needed to operate onboard ECDIS equipment to the company standard.
- **Ballast Water Management:** an 8-hour course for Officers responsible for, or who conduct, ballast water operations as well as those involved with equipment operation and maintenance of onboard ballast water management systems.
- **Onboard Assessor Training Course:** a 12-hour course for Officers who conduct onboard assessments. It's open to Officers of 2nd Officer/2nd Engineer rank or above, including ETO/AEO.
- **Crew Resource Management 3.0:** instructor-led and delivered remotely via video conference for a total of 12 hours over a number of days to suit the students and company.
