

SEFtec NMCI OFFSHORE

SEFtec NMCI OFFSHORE TRAINING LIMITED

SEFtec NMCI Offshore Training Ltd (SNO) is a joint venture company between the National Maritime College of Ireland and SEFtec Global Training Ireland Ltd (SGT). SNO combines the offshore training expertise of SGT with the world class maritime training facilities at the NMCI in pursuit of standards & accreditation for courses to the offshore industry.

The SNO Team is committed to ensuring our customers receive a quality service at all times.

(BOSIET) BASIC OFFSHORE SAFETY INDUCTION AND EMERGENCY TRAINING-OPITO

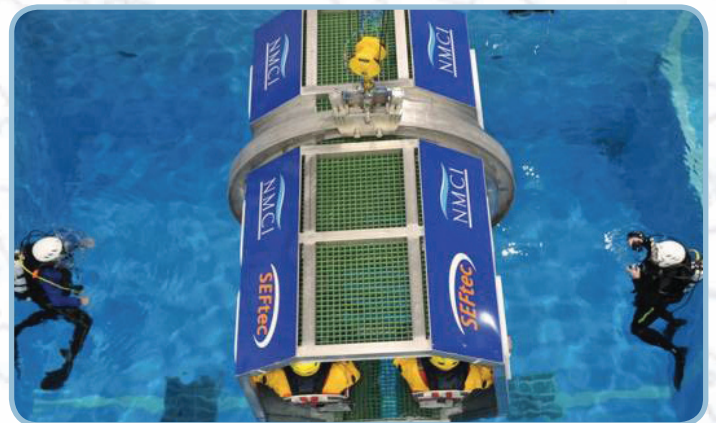

Approved

Duration: 3 days. This course is designed to provide delegates with a basic knowledge of safety and emergency response procedures for working in offshore environments. Delegates will gain a basic level of understanding and awareness of the hazards encountered when working on offshore installations, and of the safety regime and safety management systems in place to control and mitigate those hazards. The course is a mix of theoretical and practical sessions, during which delegates will be required to demonstrate their level of knowledge and understanding of the training programme content.

(FOET) FURTHER OFFSHORE EMERGENCY TRAINING-OPITO

Approved

Duration: 1 day. This course is designed to meet further emergency training requirements for oil and gas industry personnel. Delegates will be required to demonstrate their level of knowledge and understanding of the training course content. Delegates will be given further training to enhance and complement their existing knowledge of the hazards encountered when working on offshore installations and the course forms part of our on-going emergency training programme.

(MIST) MINIMUM INDUSTRY SAFETY TRAINING-OPITO Approved

Duration: 2 days. This course is designed to give delegates the basic safety training knowledge required while working in the offshore industry. The course consists of the nine basic safety modules:

1. Introduction to the Hazardous Offshore Environment
2. Working Safely (including Safety Observations Systems)
3. Risk Assessment
4. Permit to Work (also called Control of Work)
5. Platform Integrity
6. Manual Handling
7. Control of Substances Hazardous to Health (COSHH)
8. Working at Height
9. Mechanical Lifting

SEFtec NMCI OFFSHORE

(HUET & EBS) HELICOPTER UNDERWATER EGRESS TRAINING & EMERGENCY BREATHING SYSTEM- OPITO Approved

Duration: 1 Day. This training is aimed at offshore personnel who come in contact with helicopters and for personnel who require safety training. During this training programme delegates will have an opportunity to practice and demonstrate skills which it is not possible to practice offshore during drills, exercises and offshore training. They will be required to demonstrate their skills and the level of knowledge and understanding of the following: Helicopter emergencies - Emergency Breathing System (EBS) equipment, Helicopter escape, EBS Familiarization, Practical Helicopter Escape, and In-Water Procedures.

(TEMPSC) TOTALLY ENCLOSED MOTOR PROPELLED SURVIVAL CRAFT-OPITO Approved

Our various offshore lifeboat coxswain training courses aim to provide delegates with the knowledge, skills and confidence to safely launch, operate and recover the TEMPSC using the systems and procedures appropriate to that particular craft. Our specialist offshore lifeboat coxswain training courses include:

- Offshore Lifeboat Coxswain Initial Training
- Offshore Lifeboat Coxswain Freefall Supplementary Training
- Further Offshore Lifeboat Coxswain Training - Refresher

(MST) MARINE SAFETY TRAINING - RENEWABLE UK Approved

Duration: 2 Days. The renewableUK Marine Safety Training – vessel transit and transfer standard outlines the basic safety training competence required by renewableUK for all personnel involved in vessel transit and transfer for passengers. 1 course, 2 qualifications : STCW 95/PST, RUK-MST.

BESPOKE COURSES
