Course Name:

A Complete Guide to Bunkering

Course Price:

Price available on request.

Short Description:

GTSS is proud to offer A Complete Guide to Bunkering, a course designed to meet the needs of the client.

Course Type:

Petrochemical, Oil and Commodities

Full Description:

Bunker fuel has never been so important. At a time of rising oil prices, improved trading technology and ever stricter environmental regulations, it is by far the biggest expenses involved in running a fleet. Ever more shipping companies are seeking ways to improve their bunker fuel procurement strategies through sophisticated purchasing programmes, while bunker traders offer risk management and hedging support strategies. In a market characterised by tight credit, stringent fuel quality regulations and demand for cleaner fuels, LNG is now being considered as possible part of the sector's future. GTSS is proud to offer A Complete Guide to Bunkering, a course designed to meet the needs of the client. The course may be held at the client's own location, to save time and money.

This bespoke course for companies or groups is suitable for employees in the following roles:

Oil companies

Bunker suppliers/traders/brokers

Book Now

Bespoke course dates available on request

Barge operators
Ship owners and operators
Law firms
