

## Course Name:

(TEMPSC) Offshore Lifeboat Coxswain Twinfall Supplementary Training

## Course Price:

€ 330.00

## Short Description:

(TEMPSC)Offshore Lifeboat Coxswain Twinfall Supplementary Training. This programme is designed to meet the training and assessment requirements for existing certificated coxswains who are required to be competent in more than one type of fall system.

## Course Type:

Offshore & Renewable Courses

## Full Description:

This OPITO Approved programme is designed to meet the training and assessment requirements for existing certified coxswains who are required to be competent in more than one type of fall system. Duration, 1 day.

The programme may be undertaken concurrently or consecutively with initial or further practice programmes or at any time during the validity period of the current certificate, however, it is not designed to replace the further practice programme and must not be used as such.

Certificates issued to delegates must include the supplementary training, stating the types of fall to which the certificate relates (i.e. single fall, twinfall, freefall). The expiry of this certificate must coincide with the expiry of the certificate relating to the original fall type.

### Aims and Objectives of Supplementary Fall Training

The aim and objective of this 1 day Training Programme is to supplement the requirements for existing certified coxswains who are required to be competent in more than one type of fall system.
