

Course Name:

Offshore Lifeboat Coxswain Supplementary Fall Training (Twin Fall) Standard Code: 5185

Course Price:

€ 395

Short Description:

The aim of the Supplementary Fall Training programme is to supplement the requirements for existing certificated coxswains who are required to be competent in more than one type of fall system.

Course Type:

Offshore & Renewable Courses

Full Description:

Target audience:

The Supplementary Fall Training programme is designed for existing certificated coxswains who are required to be competent in more than one type of fall system. The programme may be undertaken concurrently or consecutively with initial or further practise programmes or at any time during the validity period of the current certificate, however, it is not designed to replace the further practise programme and must not be used as such.

Duration, 1 day.

Delegate pre-requisites:

Attendance on this programme is open to delegates who are in possession of a valid Basic Offshore Safety Induction & Emergency Training (BOSIET) with Emergency Breathing System (EBS) certificate, Basic Offshore Safety Induction and Emergency Training (BOSIET) with Compressed Air Emergency Breathing System (CA-EBS) certificate, TBOSIET (Tropical BOSIET) certificate, Further Offshore Emergency Training

Course Prerequisites

BOSIET /TBOSIET / FOET
/TFOET

Valid Offshore Lifeboat
Coxswain (TEMPSC)
Certificate

(with Emergency Breathing System) certificate, Further Offshore Emergency Training (FOET) with Compressed Air Emergency Breathing System (CA-EBS) certificate or TFOET (Tropical FOET) certificate.

And

A valid Offshore Lifeboat Coxswain Initial Training Certificate **or** a valid Offshore Lifeboat Coxswain Further Training Certificate.

Validity:

Certificates issued to delegates must include the supplementary training, stating the types of fall to which the certificate relates (i.e. single fall or twinfall). The expiry of this certificate must coincide with the expiry of the certificate relating to the original fall type.

Physical and Stressful Demands of the Supplementary Fall Training

Emergency response training contains physically demanding and potentially stressful elements. All personnel who participate in such training must be medically fit and capable of participating fully.

NB All delegates must undergo an appropriate medical screening by the training establishment (i.e Self Declaration of Fitness Form)
