If you have successfully completed this course within the last 4 years, you may be looking for a Re-fresher Course.

Combined Further Offshore Emergency Training

others:

Medical first aid training

Elementary first aid

The BOSIET CAEBS, FOET CAEBS & HUET CAEBS standards have changed.

There will now be shallow water CAEBS training incorporated into the course.

Delegates will be required to produce one of the three certificates outlined below:-

Produce a valid, unexpired Oil and Gas UK (OGUK) offshore medical certificate confirming the delegate's fitness for offshore work.

OR

A valid, unexpired, medical certificate of fitness to work at sea.

OR

A valid, unexpired offshore medical certificate issued by a body outside of the UK which is recognised as equivalent to the OGUK medical certificate of fitness for offshore work.

In addition to the above the delegate will be required to produce:-

A certificate of fitness to undertake shallow water CA-EBS training issued by a registered OGUK examining doctor.

OR

In the case of a Seafarers Medical with restrictions, produce a statement from an appropriate registered practitioner that the restriction or condition does not result from a respiratory or ENT condition and there is no absolute contraindication to the shallow water delegate's participation in the training.

AND

On the date on which the delegate is to undertake shallow water CA-EBS training, and prior to entering the water in which the training takes place, the delegate gives to the OPITO-approved Centre a statement, that to the best of the delegate's knowledge and belief, the delegate has no (current or past) medical condition which makes the delegate unfit to participate in the training.

You can book an OGUK medical and undertake the examination to obtain an OGUK medical together with the certificate to undertake shallow water CA-EBS Training by contacting Corporate Health, contact details below. Please contact the clinic in plenty of time to secure your preferred appointment date.
