

Course Name:

BOSIET with CA-EBS Digital Delivery

Course Price:

€ 965

Short Description:

The theoretical aspects of the BOSIET CA-EBS has undergone a digital conversion, and is now available as an online alternative. Once on-line modules have been successfully completed, practical training can be out carried in 1 day.

Course Type:

Offshore & Renewable Courses

Full Description:

This 1 day training programme is designed to meet the initial offshore safety and emergency response training requirements for personnel new (or returning) to the offshore oil and gas industry who will be supplied with a compressed air emergency breathing system (CA-EBS) during offshore helicopter travel and who choose to complete the underpinning knowledge of the BOSIET programme via the BOSIET (with CA-EBS) on-line programme prior to attending an OPITO approved training centre to be formally assessed against all learning outcomes. The objectives of the BOSIET (with CA-EBS) Training are that delegates will be able to:

(a) Identify the generic hazards which are specific to offshore oil and gas installations, potential risks associated with those hazards, and how controls are put in place to eliminate or reduce risks.

Book Now

To make a booking, please choose one of the following dates:

Precise venue to be confirmed closer to the date of the course.

 27/06/2024

 27/08/2024

 26/09/2024

 31/10/2024

 28/11/2024

 19/12/2024

Course Prerequisites

 [OGUK Medical Certificate + additional certificate of fitness to undertake shallow water CA-EBS training which will also be issued by a registered](#)

(b) Identify key offshore related safety regulations and explain the basic safety management concepts

(c) Demonstrate, in a simulated environment, that they can use the safety equipment, and follow procedures in preparing for, and during helicopter emergencies – with particular focus on escaping from a helicopter following ditching

(d) Demonstrate sea survival and first aid techniques

(e) Demonstrate that they can effectively use basic firefighting equipment, and practise self-rescue techniques in low visibility situations, to include smoke filled areas.

Delegates will complete a formal assessment against all learning outcomes.

The course is primarily practical, during which, delegates will be required to demonstrate their competence of the training programme content as outlined in the OPITO standard.

The course will cover the following elements:

Helicopter Safety and Escape.

Sea Survival.

Firefighting and Self Rescue.

First Aid.

ITEMS TO BRING:

National Photographic Identification/Passport/Driver's License,

Medical Certificate (if required)

Swim wear, towel, wash bag.

Tracksuit, 3 light cotton t-shirts, a pair of white cotton socks.

€1 coin for safety locker

Prerequisites:-

Evidence of successful completion of on-line modules.

On arrival delegates will be required to undertake a Module 1 written test (duration: 30 minutes) as a method of checking that they have met all the Module 1 learning outcomes. The test will be “open-book” . **All Module 1 learning outcomes must be achieved during the written test.**

Training and/or assessment activities that you will be required to undertake may include physically demanding and potentially stressful elements. All personnel who participate in such activities must be physically and mentally capable of participating fully, therefore a medical questionnaire will be

issued to each delegate at registration.

N.B. - Please be in the Reception area of the NMCI by 8.45 am. The course will finish at approximately 5:30 pm each day. There is free car parking facilities to the front of the NMCI.

The BOSIET CAEBS, FOET CAEBS & HUET CAEBS standards have changed.

There will now be shallow water CAEBS training incorporated into the course.

Delegates will be required to produce one of the three certificates outlined below:-

Produce a valid, unexpired Oil and Gas UK (OGUK) offshore medical certificate confirming the delegate's fitness for offshore work.

OR

A valid, unexpired, medical certificate of fitness to work at sea.

OR

A valid, unexpired offshore medical certificate issued by a body outside of the UK which is recognised as equivalent to the OGUK medical certificate of fitness for offshore work.

In addition to the above the delegate will be required to produce:-

A certificate of fitness to undertake shallow water CA-EBS training issued by a registered OGUK examining doctor.

OR

In the case of a Seafarers Medical with restrictions, produce a statement from an appropriate registered practitioner that the restriction or condition does not result from a respiratory or ENT condition and there is no absolute contraindication to the shallow water delegate's participation in the training.

AND

On the date on which the delegate is to undertake shallow water CA-EBS training, and prior to entering the water in which the training takes place, the delegate gives to the OPITO-approved Centre a statement, that to the best of the delegate's knowledge and belief, the delegate has no (current or past) medical condition which makes the delegate unfit to participate in the training.

You can book an OGUK medical and undertake the examination to obtain an OGUK medical together with the certificate to undertake shallow water CA-EBS Training by contacting Corporate Health, contact details below. Please contact the clinic in plenty of time to secure your preferred appointment date.
